Sugar Grove Park District
VOLUNTEER WAIVER & RELEASE

IMPORTANT INFORMATION

The Sugar Grove Park District is committed to conducting its recreation programs and activities in a safe manner and holds the safety of volunteers in high regard. The Sugar Grove Park District continually strives to reduce such risks and asks that all volunteers follow safety rules and instructions that are designed to protect the volunteer's safety. However, volunteers must recognize that there is an inherent risk of injury when choosing to volunteer for any activity or program.

Please recognize that the Sugar Grove Park District carries only limited medical accident coverage for volunteers; therefore, it is strongly urged that all volunteers review their own health insurance policy for coverage. Additionally, each volunteer is solely responsible for determining if he/she is physically fit and/or properly skilled for any volunteer activity. It is always advisable, especially if the volunteer is pregnant, disabled in any way or recently suffered an illness, injury or impairment, to consult a physician before undertaking any physical activity.

WARNING OF RISK

Despite careful and proper preparation, instruction, medical advice, conditioning and equipment, there is still a risk of serious injury when providing volunteer services. Understandably, not all hazards and dangers can be foreseen. Volunteers must understand that depending upon the volunteer services, certain risks, dangers and injuries due to acts of God, inclement weather, slip and falls, inadequate or defective equipment, failure in supervision or instruction, premises defects, horseplay, carelessness, lack of skill or technique, and all other circumstances inherent to the particular volunteer services exist. In this regard, it must be recognized that it is impossible for the Sugar Grove Park District to guarantee absolute safety.

WAIVER AND RELEASE OF ALL CLAIMS AND ASSUMPTION OF RISK

Please read this form carefully and be aware that in consideration for providing volunteer services, you will be expressly assuming the risk and legal liability and waiving and releasing all claims for injuries, damages or loss which you may sustain as a result of participating in any and all activities connected with and associated with your volunteer services (including transportation services/vehicle operations, when provided).

As a volunteer, I recognize and acknowledge that there are certain risks of physical injury to volunteers in this program/activity, and I voluntarily agree to assume the full risk of any and all injuries, damages or loss, regardless of severity, that I may sustain as a result of my volunteer services. I further agree to waive and relinquish all claims I may have (or accrue to me) as a result of my volunteer services against the Sugar Grove Park District, including its officers, officials, agents, volunteers and employees (hereinafter collectively referred as "Parties").

I do hereby fully release and forever discharge the Parties from any and all claims for injuries, damages, or loss that I may have or which may accrue to me and arising out of, connected with, or in any way associated with my volunteer services.

I have read and fully understand the above important information, warning of risk, assumption of risk and waiver and release of all claims. If registering on-line or via fax, my on-line or facsimile signature shall substitute for and have the same legal effect as an original form signature.

Safety Training

1. **Injury Prevention: Core 6 Strategy**

- A. Correct Equipment – Always use the correct equipment for the job. Use additional equipment if it will make the job safer.
- B. 30-Second Site Survey – By conducting a 30-Second Site Safety Walk-Through, an employee can minimize the likelihood of an injury. A 30-Second Site Safety Walk-Through should be conducted prior to beginning work at any job site or job task. Any hazards or safety concerns observed during the 30-Second Site Safety Walk-Through should be eliminated or steps taken to minimize the hazard. Below are some important factors when conducting your walk-through:
 - ***Pause before you approach:***
 - Ask yourself: “Are there any obvious potential safety hazards?”
 - Generally, your first impression will be correct.
 - ***Observe your surroundings***
 - What is there about the location, terrain, ground or flooring that could create a hazard or cause an injury?
 - ***Observe the traffic in or around the worksite***
 - Will vehicle or pedestrian traffic cause a safety hazard or concern?
 - ***Protect yourself!***
 - Should you be wearing personal protective equipment?
 - Are you wearing the appropriate footwear to safely perform the job?
 - ***Consider the unknown:***
 - What is unique about the site that may cause a safety concern?
 - Will the equipment, materials or job task introduce safety concerns?
- C. Personal Protective Equipment – The park district provides personal protective equipment and training in its use to each employee who works with hazards that might require such protection. Your supervisor provides training. Once provided with the PPE, employees must wear it at all times while working with the hazard.
- D. 3 Points of Contact - Employees are encouraged to use the 3 Points of Contact method during any activity where they are entering/exiting vehicles or mounting/dismounting equipment. The 3 Points Contact method is maintaining contact with on hand and two feet or two hands and one foot at all times when entering or exiting a vehicle.
- E. Reversal of Posture/Stretching- It is important to stretch before and after strenuous activities. Doing so will allow you to avoid unnecessary injury. Warm up first – stretching muscles when cold increases your risk of pulled muscles. Warm up by walking while gently pumping your arms, or do a favorite exercise at low intensity for five minutes. Hold each stretch for at least 30 seconds and don't bounce. Stretch before and after a strenuous activity. Reduce fatigue by taking a break from time-consuming activities to stretch.
- F. Best Practice Lifting- There are several basic rules of lifting and moving that can help prevent back injuries:
 - a. Lift with your legs, not your back; this is because your leg muscles are larger and better positioned over the hips and knees to provide this activity.
 - b. Do not twist; instead, always position your hips and feet toward the object you are lifting or moving.
 - c. Maintain the natural curves of the neck, upper back and lower back while lifting, moving and even sitting.
 - d. Keep objects close to your body at waist level; this reduces the leverage on your spine.

- e. Push, rather than pull when possible. Pushing naturally places your legs in a position to do the work whereas pulling naturally places your back in a forward bent position.

2. Reporting Hazardous Conditions

The park district recognizes the need to maintain an ongoing safety inspection program. As park district employees, we ask that you assist in this effort by reporting any unsafe condition found in the daily course of your duties.

3. Coverage of Specific Safety Rules

Depending on your position, there may be safety rules that are specific to the type of job you are doing. Additionally, there are safety rules for operation of vehicles and equipment. Your supervisor will review these rules with you. The park district conducts regular trainings. It is the responsibility of the employee to attend training and to familiarize themselves with the safety rules.

4. Accident/Incident Reporting Procedures

Employees must immediately report to their supervisor any injuries, accidents or damage that occur to park district employees, participants, vehicles, equipment or property. The supervisor is responsible for immediately completing accident report and forwarding it to the Safety Coordinator. (See PDRMA Form 01)

5. Statements of Admission

No matter what the circumstances, employees should never make any statement of admission or speculate on the causes of an accident or injury. Any questions in this regard should be directed to the Safety Coordinator, Director or appropriate department manager.

6. Communicable Diseases/ Bloodborne Pathogens

Bloodborne pathogens are diseases that are carried by blood or other bodily fluids. When dealing with any bodily fluid, you should assume that it is infectious and take precautions like wearing gloves, face shield, CPR shield, or eye protection. Make sure to dispose of contaminated material properly and wash hands thoroughly.

7. Emergency Response Plan

Depending on your position, there may be an emergency response plan that is specific to the type of job you are doing or location. Your supervisor will review this plan with you. It has been developed to serve as a guide and resource for the proper implementation of actions to be accomplished during a disaster. Through use of this plan, injuries and property damage can be kept to a minimum.

8. Hazard Communication – Right-to-Know Training

The park district recognizes the Illinois Right to Know law, and will exercise care in providing a safe and healthful work environment for its employees. The park district will make available all pertinent information regarding toxic substances, as required by law, in the following manner:

- a. Poster displayed at each location of employment informing employees of their rights and responsibilities.
- b. Safety Data Sheets (SDS) maintained for each chemical or substance;
- c. annual training;
- d. uniform labeling system.

9. Driving Standards

Only employees eighteen years old and possessing a valid drivers' license are permitted to operate park district vehicles on public roadways. Employees complete annual checkrides for each vehicle they may operate. They are also subject to annual driver abstract checks. Any employee whose license is suspended must immediately notify his/her supervisor. Any CDL drivers must comply with DOT policies. While operating district vehicles, employees are required to obey all state laws including mandatory use of seat belts.

10. Check Rides for Each Vehicle

Employees complete annual check rides for each vehicle they may operate. Your supervisor will conduct this on-road safety check with you.

11. Non-Discrimination and Anti-Harassment Policy

It is the responsibility of each and every employee, officer, official, Park Commissioner, agent, volunteer and vendor of the park district to refrain from harassment. If you witness harassment or believe yourself to be the object of harassment, you should deal with the incident as directly and firmly as possible by clearly communicating your position to the offending employee and your immediate supervisor and/or the director. (See policy and sign acknowledgment)

12. Training on High Risk Equipment

No employee is permitted to operate any equipment involving high risk of injury without proper training by the employee's supervisor. Operating high risk equipment without complete training is cause for disciplinary action.

13. Child Abuse Reporting Act

The Illinois Abused and Neglected Child Reporting Act provides guidelines for the reporting of child abuse and neglect. Any staff member having reasonable cause to believe a child known to them in their official capacity may be an abused or a neglected child is required to immediately report their concerns to DCFS. (See definitions and signs of child abuse/neglect. Sign DCFS acknowledgement of mandated reporter status)

14. Alcohol and Drug Policy

The unlawful manufacture, distribution, dispensation, possession or use of a controlled substance, including cannabis and alcohol is prohibited on park district property. There are provisions for voluntary reporting and treatment without adverse employment consequences. There are consequences for employees who violate the policy.

15. Personnel Policies

The Park District is proud of its record of continuing growth and expansion of services offered to the residents of the Park District. The growth and reputation of the Park District are the direct results of individual efforts and close cooperation by all of our employees. Our future success will depend upon continuation of these efforts, along with good safety habits, and adherence to the highest professional standards and ideals.

16. Patron Behavior Management

A caring, positive approach will be taken regarding discipline. Each participant or facility patron is expected to:

- a. Treat all participants/patrons and staff with respect.
- b. Respect all equipment.
- c. Follow all rules so he/she will not place him/herself or others in a dangerous situation.

The participant/patron or the parent/guardian will be informed of the specific disruptive behavior, what corrective action on their part must be taken and what the potential consequences will be. An incident report will be completed and filed.

17. Fire Extinguishers

Remember the 3 A's – **Activate** the building alarm system or call 911, **Assist** any persons in immediate danger or those incapable to leave the danger area on their own, **Attempt** to extinguish the fire if it is small, contained, nontoxic, and your instincts tell you its ok.

PASS – **Pull** the pin, **Aim** the nozzle, **Squeeze** the handle, and **Sweep** back and forth at the base of the fire.

18. Respirator Use

19. Hearing Protection

Employees exposed to high noise levels for extended periods of time can suffer permanent hearing damage. Ear protection is recommended to avoid permanent hearing damage. The two most common types of ear protection are moldable earplugs and earmuffs.

20. Footwear Policy

The wide variety of maintenance tasks conducted at our agency makes it difficult to require employees to wear safety shoes at all times. In some cases, metal sole inserts or steel toes can make bending and kneeling difficult and can chill feet during winter months. However, it is important that employees have foot protection available when specific jobs warrant their use.

21. Fall Protection

When using a portable ladder, be sure to match the size and type of ladder with the job for which it will be used. Inspect ladder prior to use. Open completely so that the braces are fully engaged before stepping up and onto the ladder. When possible, have a second staff person hold ladder while you are climbing. Never use the top as a step. Always have 3 points of contact on the ladder while using. Only those employees that have been properly trained on the use of the man-lift may operate it.

22. Lock Out/Tag Out

OSHA requires employers to complete assessments for all work places to determine the need for securing energy sources on equipment prior to performing maintenance, cleaning and adjustment tasks. Lockout is the placement of a lockout devices such as a key lock on the energy isolating device. Tagout is the use of a prominent warning device such as a tag that can be securely fastened to the energy isolating device. If an energy device is locked out or tagged out, staff is required to keep out.

23. Confined Space

24. Powered Industrial Trucks (Forklifts)

25. Crisis Media Planning

A crisis is a situation or event that causes, or has potential to cause, keen public or media concern. In the event of a crisis, the crisis management team is comprised of authorized persons who are responsible for taking charge of the crisis situation. The chain of responsibility order for the crisis team is: (1) Executive Director, (2) Superintendent of Parks, (3) Superintendent of Recreation, (4) Program Manager. The Executive Director is the official spokesperson for the agency.

26. Job Specific Training

Your supervisor will review any safety issues related to your specific duties.
